5 Eco Vouchers – Points

STEP 3

After your stay

Complete the satisfaction survey. In the Tomorrow Needs Today section, tick the Eco-Bon actions you participated in and receive your login and password to access your personal account.

STEP 4

After your stay

Convert your points into Martin's Gift Vouchers at our e-shop. Gift Vouchers are accepted in all of our hotels, restaurants and spa for stays "à la carte"

100 points = 1 Martin's Gift Voucher = €50.

Did you know...

Eco Vouchers can be earned every time you stay at a Martin's Hotel

More information about the environment friendly →

Eco Vouchers,

an ecological way to enjoy your stay!

WHAT IS THE ECO-BON PROGRAMME?

For several years, Martin's Hotels has been involved in many projects with regard to the ecology, fair trade, cultural and humanitarian activities. Today, we are structuring these activities in order to develop them further, and have set up a sustainable development project so that we can act more effectively in the interests of our planet and future generations.

We would value your involvement in this wholly voluntary project by suggesting some simple and useful things you can do during your stay. Under no obligation whatsoever. Yet amply rewarded. So that, together, we can prepare the future as from today, because 'Tomorrow Needs Today'.

HOW DOES IT WORK?

By reducing the ecological footprint of your stay thanks to the 5 following suggestions, you earn Eco Vouchers which can be accumulated every time you stay at one of Martin's Hotels, and which can be exchanged for Martin's Gift Vouchers.

WHAT CAN I DO TO PROTECT THE ENVIRONMENT?

20 REQUEST A LIMITED CLEANING SERVICE FOR YOUR ROOM

This means we will be only making the bed and empty the rubbish bins, thus reducing CO2 emissions associated with water and electricity consumption and from cleaning products. Please hang the 'Tomorrow Needs Today' card outside your room before 8 a.m.

20 Eco Vouchers – Points

10 RE-USE YOUR BATH TOWELS

Only towels left in the bath will be replaced. Washing laundry consumes vast amounts of water which, having been polluted by detergents, needs to be treated before being returned to our rivers.

10 Eco Vouchers – Points

10 ADOPT «GOOD PRACTICES»

Manage your energy consumption in a prudent and responsible fashion. Some examples: switch off the heating and air conditioning when you open windows, turn lights out when you leave a room and turn off your computer when you're not using it, etc. This will reduce the impact on global warming.

Please leave cans, plastic and glass bottles, paper and cardboard on your desk in order to let housekeeping sort them.

10 Eco Vouchers – Points

5 SELECT «ECOetBON» LABELLED DISHES AND DRINKS

Our restaurants and bars offer "EcoetBon" labelled dishes and drinks! These are locally sourced, seasonal products. Short delivery distances from suppliers reduce CO2 emissions.

5 Eco Vouchers – Points

5 ORGANISE YOUR TRANSPORT RESPONSIBLY

Public transport, car pooling, cycling or taxi-sharing are solutions you can adopt. If you confirm that you have opted for one of these, you earn 5 Eco vouchers.
